

# OWLYTIC AUDIT

The Benchmark tool for auditors and entrepreneurs.

A stylized globe of the Earth is centered in the image, rendered in shades of orange and yellow. It is overlaid with a complex network of white and grey lines and dots, representing a digital or data network. The background is a dark, deep blue with faint, scattered white dots, suggesting a starry sky or a digital space. The text is overlaid on the globe.

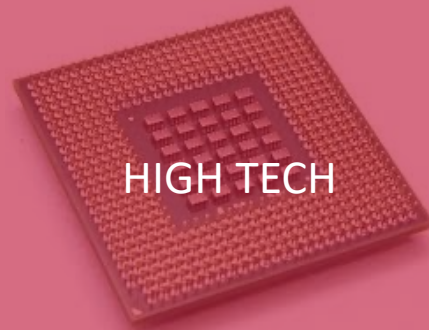

We now live in a  
**DIGITIZED**  
world

# EVERY INDUSTRY IS SHIFTING

Leaders adopt their business to a digitized world, creating sustainable value and satisfied employees.

**“Reading hundreds of pages of audit reports to identify the key takeaways made me hate audits!”**

*CEO of SME in MedTech*

***“Preparation, Follow up and reporting is too time consuming!”***

LEAD AUDITOR - SME in MedTech

## Lack of Transparency

Information everywhere  
and no overview

—

Where is the  
documentation  
(Email, Excel, Word,  
Paper)?

## Administrative Loss

Repetitive and time-  
consuming tasks

—

How to get time for  
Preparation, Audit, reporting  
and Follow Up?

## Communication issues

No targeted  
communication on  
different levels

—

What do I need to know?

## Compliance issues

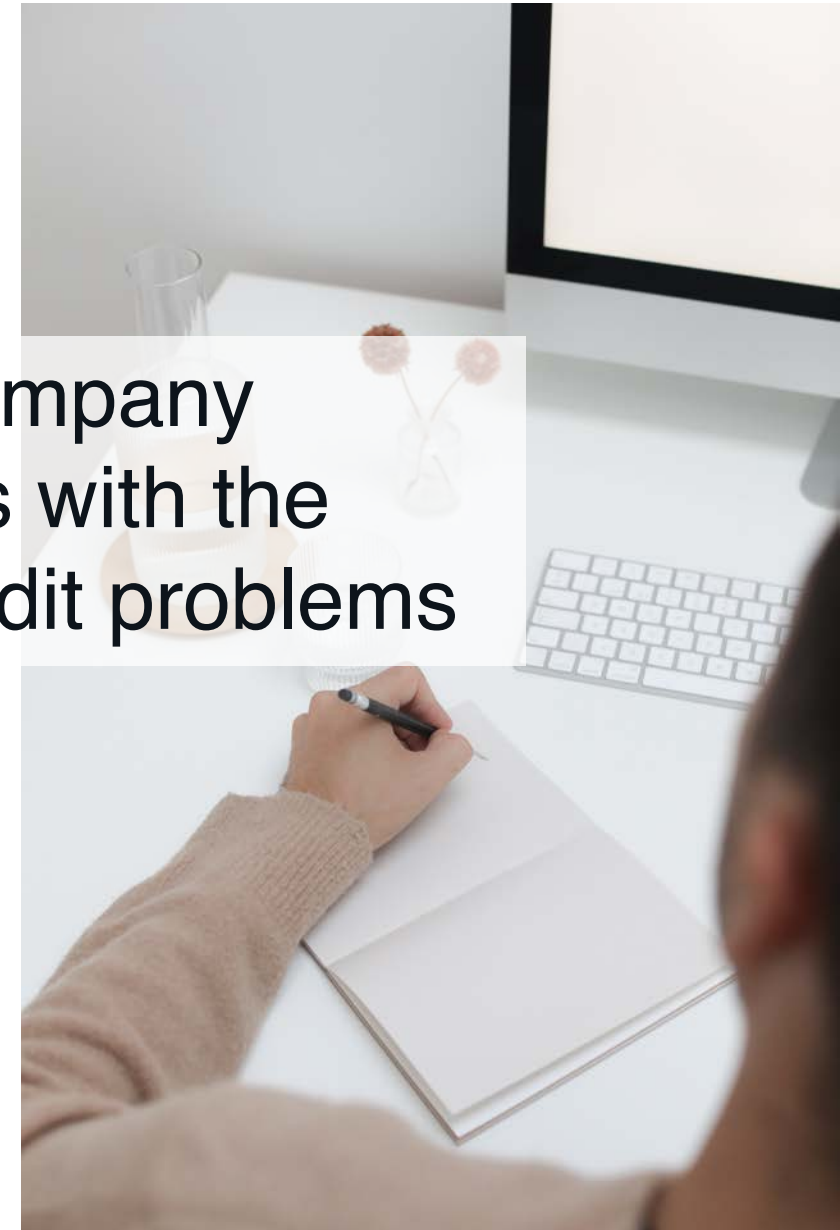

Time-consuming update of  
all relevant audit  
documents

—

What has changed?

Every company  
struggles with the  
same audit problems

Costs for a  
typical 3 day audit

***How much money can  
be saved going  
digital?***

**19,000 €**

Standard costs\*

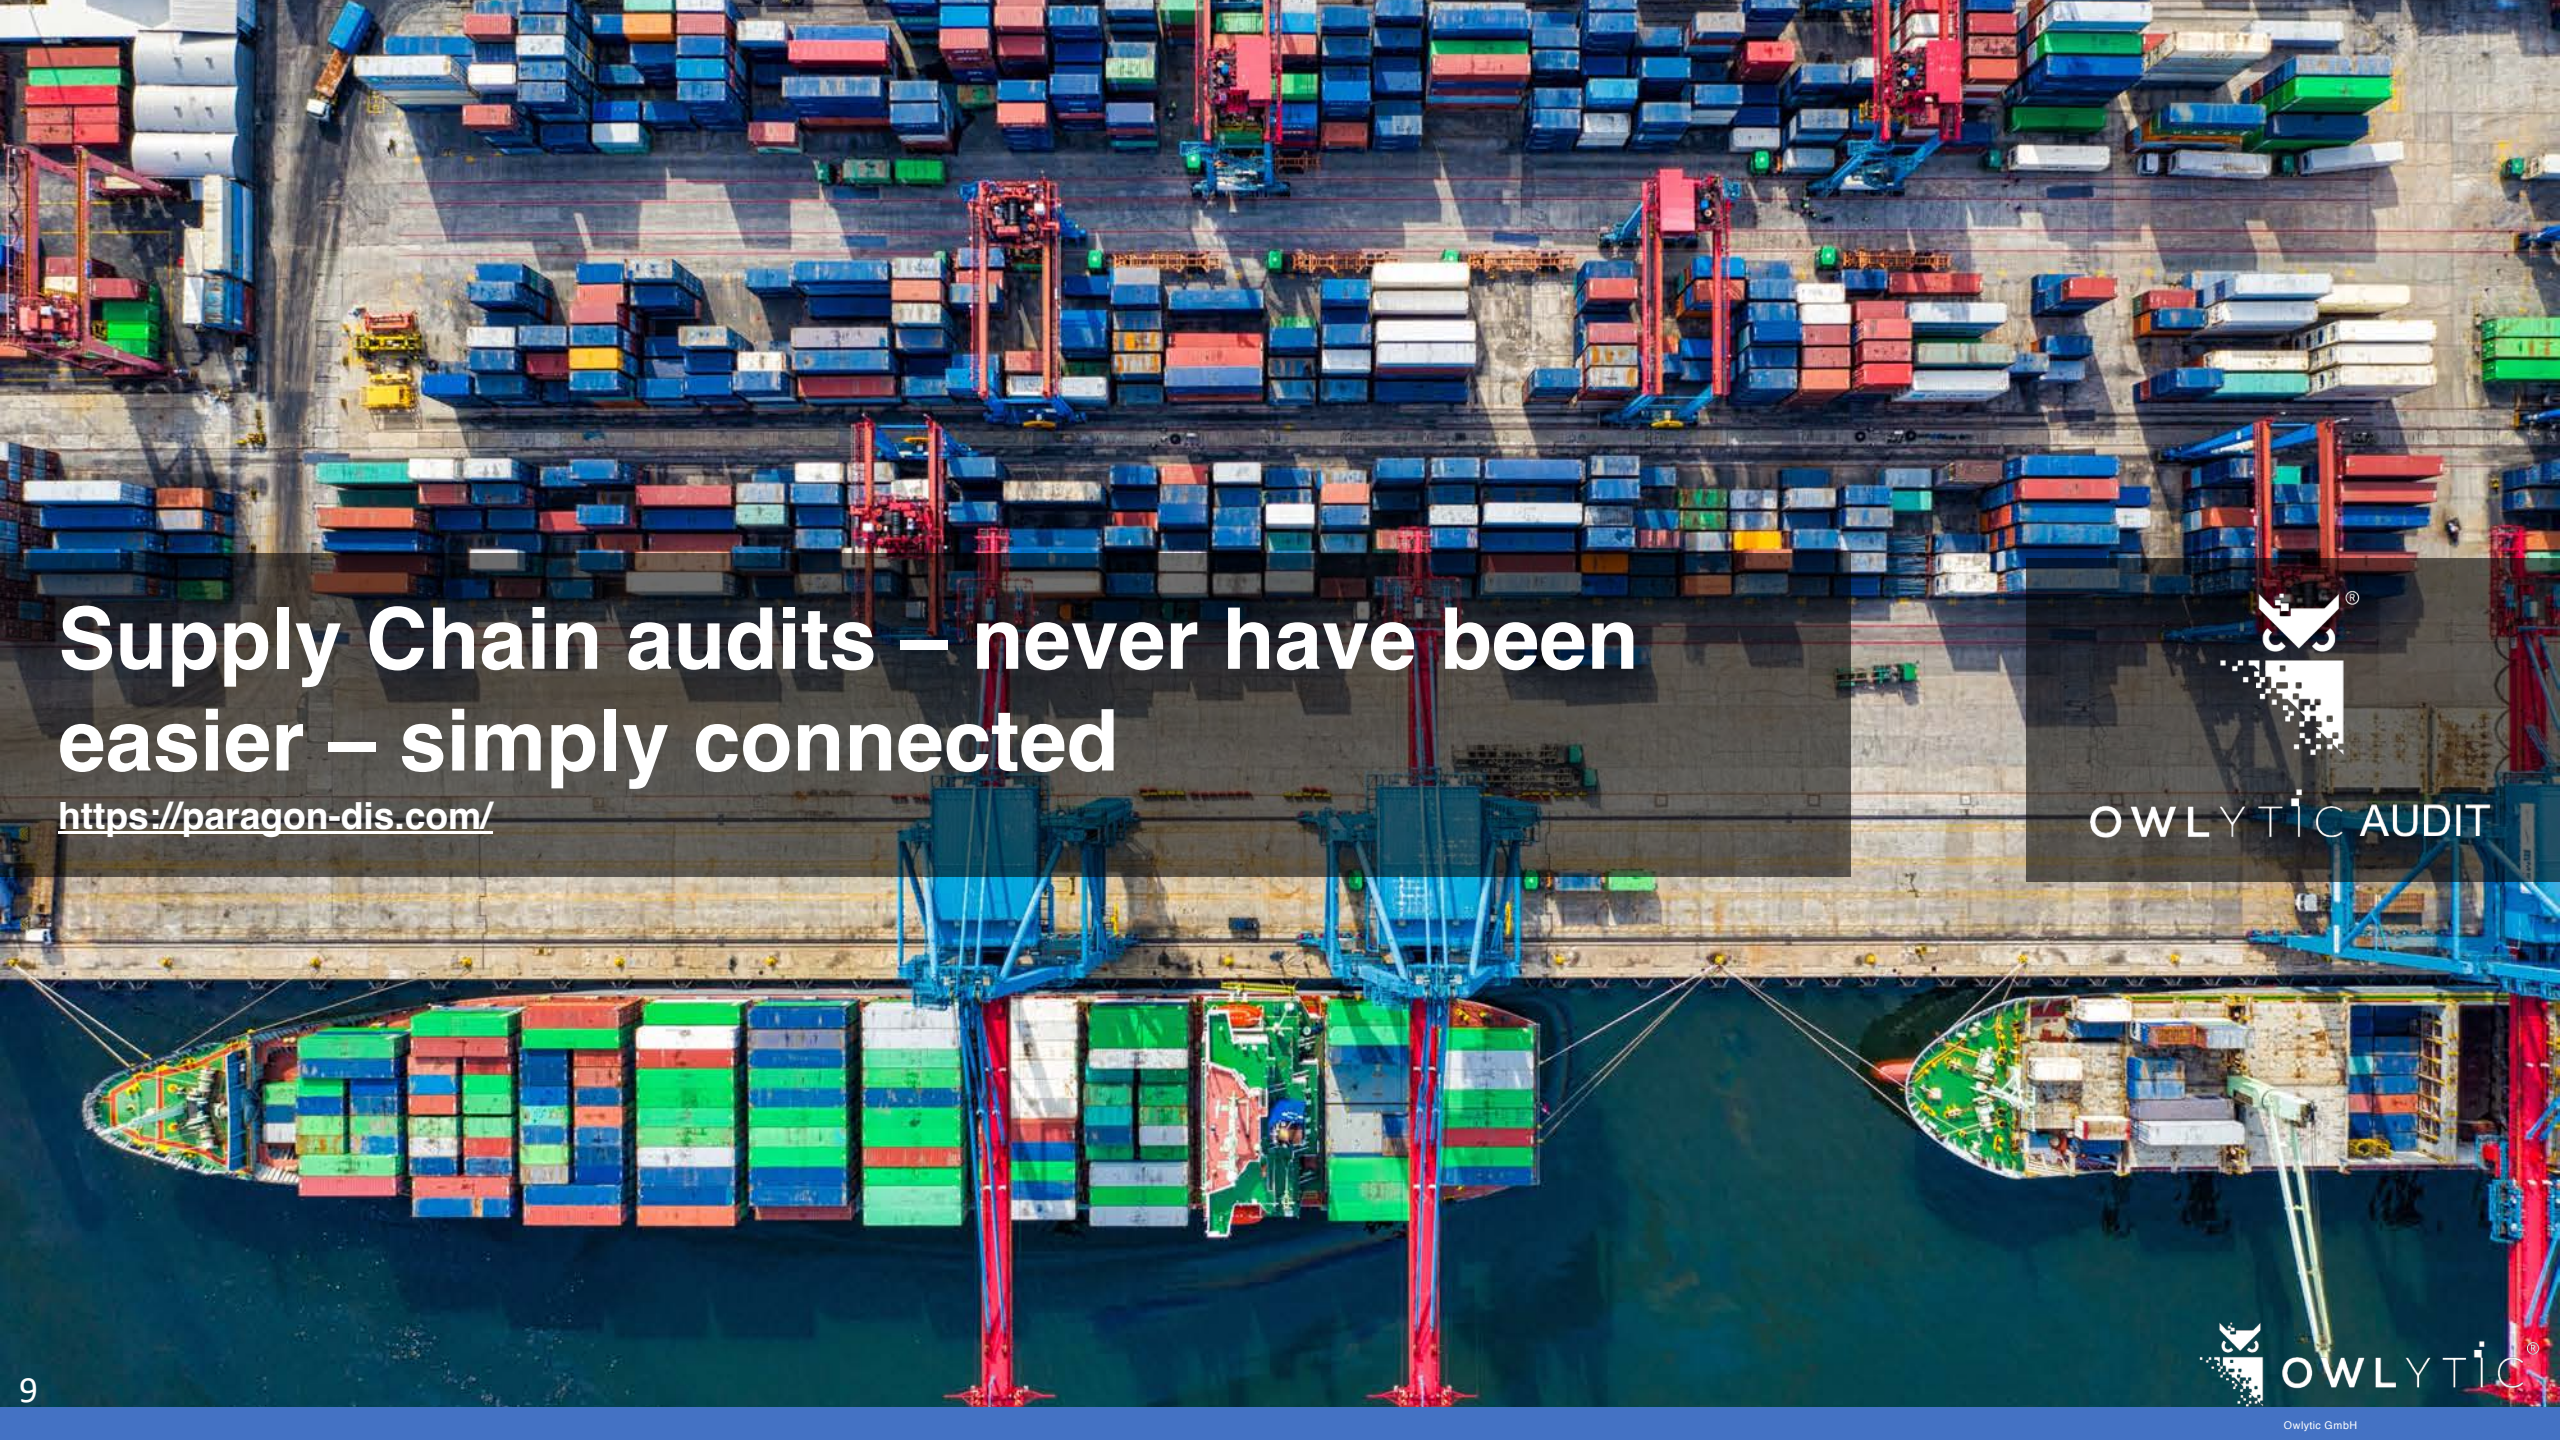

\*based on customer's feedback and survey

43% of SME's are facing a **shortage in skilled people** and need to make the most of existing resources

There is a  
**BETTER WAY**  
to audit!
